1stop.ai

Aug 2023 – Nov 2023

Intern - Frontend Developer

Remote

- Acquired essential frontend development skills through a four-month intensive training program.
- Built responsive, visually appealing web applications using HTML, CSS, JavaScript, and various frameworks.
- Applied industry best practices to develop intermediate-level projects from scratch.

Internshala Training

May 2022 – July 2022

Intern - Frontend Developer

Remote

- Completed a comprehensive training program covering both frontend and backend development.
- Gained practical experience through project-based learning focused on modern web technologies.
- Managed and coordinated project tasks, ensuring timely delivery and effective team collaboration.

PROJECTS

YOUTUBETWEET

Aug 2025 - Aug 2025

- Built YouTube-like backend API using **Node.js**, **Express**, and **MongoDB** with video uploads, authentication, and subscriptions.
- Implemented secure file handling with **Cloudinary**, **Multer**, **JWT**, and **bcrypt** for media storage and user security.
- Optimized database queries with Mongoose pagination for scalable performance across user interactions.

REDDISH | A Reddit Clone

July 2025 - July 2025

- Built a full-stack Reddit clone using **Next.js 15**, **React 19**, **Clerk** for authentication, and **Sanity CMS** for content management.
- Integrated **AI moderation** using the OpenAI API to filter user-generated content in real-time.
- Designed a modern, responsive UI with **Tailwind CSS v4**, and enhanced user experience using **Zod** for validation.

DRIVEX| Storage Solution

April 2025 - April 2025

- Developed DriveX, a Google Drive clone using **Next.js 15**, featuring file upload, preview, sharing, and folder organization.
- Integrated **Appwrite** for backend storage and authentication, improving data sync speed and real-time file operations.
- Leveraged **Tailwind CSS v4** with custom design tokens, reducing UI dev time by 30%.

HORIZON | Blog Website

Jan 2025 - Jan 2025

- Developed using React, React Router, and **Tailwind CSS**, providing a responsive and interactive user experience.
- Integrates **Appwrite** for managing blog posts, user authentication, and file storage, ensuring data security and scalability.
- Incorporates **React Hook Form** and **Redux**, improving code efficiency and maintainability.

EDUCATION

Chandigarh University

Aug 2020 – May 2024

Bachelor of Engineering - Computer Science and Engineering

Mohali, Punjab

CERTIFICATES

- Python for Data Science, AI & Development
